Healthcare and Life Science Internship 2018

A springboard to an exciting career

About the internship

As an intern, you will primarily work as a junior team member in client assignments within Healthcare and Life Science (depending on assignment availability).

Successful candidates possess sharp analytical skills, creativity, drive, and excellent communication skills – in Swedish as well as English, along with a good team spirit. Furthermore, you should have a strong academic background as well as knowledge and competence related to Healthcare and Life Science.

How to apply

The application should include the following:

- CV
- Cover letter including preferences regarding timing of internship
- Grades from university
- Grades from upper secondary school

Please write your application in English and send it no later than November 12th, 2017 to: nordic.recruitment@adlittle.com (mark your e-mail “Internship”).

If you have any questions please contact: Robert Smolander at 0708-83 20 12 or smolander.robert@adlittle.com
