

Our spring 2019 introductory course on Pharmaceutical Bioinformatics (7.5 ECTS credits; 21 Jan - 31 Mar, 2019) given by Uppsala University is now open for regular application.

The course, which is free of charge for EU/EAA-citizens, is suited for researchers who are interested to learn how complex chemical and biomedical processes can be investigated even down to their finest chemical details using informatics, and how this can be used for the developments and investigations on drugs.

To pre-register and receive further information please sign up at www.pharmbio.org

On request of many previous participants we now also offer two additional courses:

- I. Applied Structural Pharmaceutical Bioinformatics (5 ECTS credits; 21 Jan - 10 Mar, 2019)
- II. Applied Pharmaceutical Bioinformatics (5 ECTS credits; 8 Apr - 26 May, 2019)

More information is available at www.pharmbio.org/pages/other_courses

To finally officially apply, please follow this link:

<https://www.universityadmissions.se/intl/search?period=2&freeText=pharmaceutical+bioinformatics&semesterPart=0>

Please note that the regular application period for spring term ends on Oct 15!

For non-EU students with an institutional affiliation our courses are available as commissioned courses.

For regular commissioned courses please sign up at <http://www.pharmbio.org/c/commissioned-sign-up>

If you are PhD student and wish a commissioned course please sign up at <http://www.pharmbio.org/pages/phd-course>

We would also be pleased if you could forward this message among your students, as we have difficulties to reach out to these.

If you have any questions regarding the courses we are at your disposal.

All our best regards
