

Master Thesis- Surface Design

[Apply](#)

Be part of something altogether life-changing!

Working at Cytiva in the Life Sciences industry means being at the forefront of providing new solutions to transform human health. Our incredible customers undertake life-saving activities ranging from fundamental biological research to developing innovative vaccines, new medicines, and cell and gene therapies.

At Cytiva you will be able to continuously improve yourself and us – working on challenges that truly matter with people that care for each other, our customers, and their patients. With associates across 40 countries, Cytiva is a place where every day is a learning opportunity – so you can grow your career and expand your skills in the long term.

Cytiva is proud to work alongside a community of nine fellow Danaher Life Sciences companies. Together, we're pioneering the future of science and medicine, developing products that enable researchers in the fight to save lives.

Downstream Bioprocessing is a department (~120 people) that belongs to the Global BioProcess R&D. Typical products developed from the department are chromatography resins and other consumables used in BioPharma manufacturing.

We are now looking for a Master level applicant ('XJobb') within the field of organic chemistry. You will, as part of R&D, contribute to the development of disruptive products which are used in the manufacturing of leading biological drugs.

What you'll do:

This position has a strong focus on synthesis work in lab scale and hence the person suited for this opening should enjoy working in a chemistry lab.

Perform experimental work within the area of surface, protein chemistry as well as polymer chemistry

- Independently plan and accomplish given tasks, to reach given project objectives
- Independently solve problems of "trouble shooting character" in project work
- Document and report results both orally and in a written form
- Conduct all tasks within the framework of Cytiva policies and guidelines

Who you are:

- Hands on experience with working with polysaccharides is a plus
- Driven
- Goal oriented
- Good reporting skills (oral and written form)
- Good interpersonal skills
- English and Swedish as working language

When you join us, you'll also be joining Danaher's global organization, where 80,000 people wake up every day determined to help our customers win. As an associate, you'll try new things, work hard, and advance your skills with guidance from dedicated leaders, all with the support of powerful [Danaher Business System](#) tools and the stability of a tested organization.

At Danaher, we value diversity and the existence of similarities and differences, both visible and not, found in our workforce, workplace and throughout the markets we serve. Our associates, customers and shareholders contribute unique and different perspectives as a result of these diverse attributes.

If you've ever wondered what's within you, there's no better time to find out.
