

Rarity Bioscience AB is currently looking for thesis students

We are a start-up company developing ultra-sensitive and precise nucleic acid and protein detection methods, in order to apply these high-performance molecular methods in medical and biological research.

We are now looking for one or more thesis students to participate in further development of various applications.

Roll requirement:

- Studies at Master's level in Molecular Biology, Biochemistry, Biotechnology.
- Genuine interest in your field.
- Familiar with RT-qPCR, ddPCR, fluorescent based cell analysis, etc.
- Ability to work independently in a problem driven environment.
- Excellent oral and written communication skills in English.

What we offer:

- You will learn and utilize basic and advanced molecular biology techniques.
- An innovative research environment with creative ideas and interesting applications.
- Innovative projects with potential commercial applications.
