

SFB POLYGENIC ADAPTATION:

From single selected loci to the infinitesimal model

Postdoc and PhD positions available!

Postdoc positions with [Joachim Hermisson](#),
[Himani Sachdeva](#) (Univ. of Vienna, AT),
[Magnus Nordborg](#) (Gregor Mendel Institute, AT)

- Evolutionary modeling
- Genetics of local adaptation

Apply by
June 04, 2023

PhD positions with [Neda Barghi](#), [Robert Kofler](#) and
[Christian Schlötterer](#) (Vetmeduni, Vienna, AT):

- Characterizing the adaptive architecture of polygenic traits
- Comparison of the genetic and adaptive architectures of polygenic traits
- Genomic and phenotypic patterns of adaptation in large experimentally evolved populations
- Understanding body size variation using experimental evolution
- Understanding polygenic adaptation with reduced genetic variation
- Characterizing the role of non-additive effects for adaptive responses
- The role of genotype x environment interactions for adaptive responses
