Uppsala BIO has the mission to strengthen the region's Life Science. So what to focus on now and how will we create the future?

Welcome to "Efter Jobbet" with Uppsala BIO!

At the meeting we reveal what´s on our agenda now and what we are planning for the Life Science sector in Uppsala to develop and grow. We will share how we contribute to developing Business Park to something completely new, describe our part in the exciting development of Testa Center and more.

We are as usual curious about and dependent on hearing more about your needs and challenges to make sure that we take the right actions. Come and meet us and provide your input to our current and future agenda!

Uppsala BIO promotes the growth of a strong and sustainable life science sector. We make life science more competitive. Everyday.

When: 11 of April 16.30-18.00. [Registration](#) opens and coffee and sandwich will be served from 16.30.

Where: Uppsala Innovation Hub, Dag Hammarskjölds väg 38.
