We are looking for a project assistant to work at the field station of the Department of Ecology and Genetics, the Erken Laboratory, see www.ieg.uu.se/erken-laboratory/

**Duties:** You will work with the analysis of samples in the certified laboratory of the field station, in particular analyses of water and sediment chemistry of freshwater and brackish samples. In addition, the project assistant will assist with outreach activities at the station, in particular related to ‘Water days’ for school children, as well as field samplings and measurements and other work tasks at the station.

**Qualifications required:** High school degree with focus on natural sciences, alternatively science base year. You should have previous experiment with laboratory work and educational work and need to be able to work as part of a team as well as independently and accurately. Candidates must be fluent in spoken as well as written English or Swedish.

**Qualifications desired:** University education (BSc/MSc) in biology, environment, chemistry or natural sciences or completed university courses within the same subject areas. Previous experience with water chemical analyses and outdoor teaching activities as well as field sampling and measurements is a merit. Drivers license.

**Position:** The position is a temporary position for 2 months on 100%

**Salary:** Individual salary.

**Starting date:** 2020-08-24.

**Application:** The application should include 1) a letter of intent describing yourself, your research interests and why you want this position, 2) a short description of your education, 3) a CV and 4) the names and contact information to at least two reference persons (e-mail address and phone no.). The application should be written in English (leave out if not relevant).

Uppsala University aims for gender balance and diversity in all activities in order to achieve a higher quality at all levels of the organization. We therefore welcome applicants of any gender and with different birth background, functionality and life experience.

**For further information about the position please contact:** Dr. Silke Langenheder, e-post: silke.langenheder@ebc.uu.se, +46 18 471 2710

You are welcome to submit your application no later than 2020-07-24.
