Dear all,

I offer a PhD-course in **Modeling in Ecology and Evolution** to be held at EBC in Uppsala. The course is held jointly for master and PhD students and you can find more information here

[https://www.biology.uu.se/phd/education/courses/modeling](https://www.biology.uu.se/phd/education/courses/modeling)

and here

[http://www.ibg.uu.se/education/courses-programmes/all-courses/1BG383/](http://www.ibg.uu.se/education/courses-programmes/all-courses/1BG383/)

This is an evening course (17:00-20:00) consisting of ten three-hour meetings. Each meeting consists of a two-hour lecture and a one-hour tutorial. Furthermore, each week a problem set has to be solved whose solutions have to be handed in. These will then be discussed during the tutorial. Most problems have to be solved with paper and pencil but some involve computer modeling in R.

Classes will take place on Tuesday nights **between January 19 and March 16, 2021** (nine times) and once on a Thursday night (**January 21**).

In light of the current situation due to the Corona virus, the course will be taught as an online course via Zoom.

**Deadline for registration:** January 8, 2021.

Please register by sending an Email to claus.rueffler@ebc.uu.se and do not hesitate to get back to me in case you have any questions!

Best wishes,

Claus
